

**Core Question 3: Is the organization effective and well run?**

The Governance and Leadership Performance Framework, outlined in Core Question 3, gauges the academic and operational leadership of schools. Core Question 3 consists of five indicators designed to measure schools on how well their school administration and board of directors comply with the terms of their charter agreement, applicable laws, and authorizer expectations.

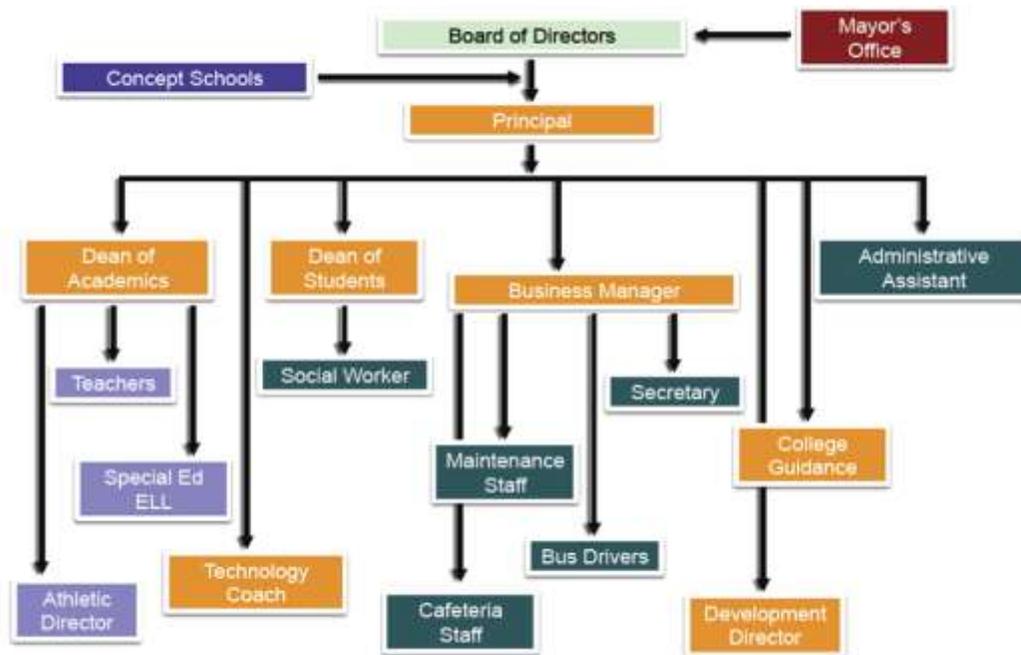

3.1. Is the school leader strong in his or her academic and organizational leadership?							
Indicator Targets	Does not meet standard	The school leader presents concerns in a majority of the sub-indicators with no evidence of a credible plan to address the issues.					
	Approaching standard	The school leader presents concerns in a minimal number of the sub-indicators and may or may not have a credible plan to address the issues.					
	Meets standard	The school leader complies with and presents no concerns in the sub-indicators below.					
	Exceeds standard	The school leader consistently and effectively complies with and presents no concerns in the sub-indicators below.

	Consistency in providing information to and consulting with the schools' board of directors						MS

Indiana Math and Science Academy North (IMSA North) contracts with Concept Schools, a charter management organization serving 30 schools in the Midwest, three of which are located in Indianapolis. As part of the school leadership team, Concept Schools provides regional support in the areas of leadership coaching, academics, operations, and finances through a Superintendent, treasurer, instructional coordinators, and finance staff. The Superintendent for the Indianapolis schools has extensive experience in

education and was most recently the School Director at IMSA North. 2013-2014 was the first year for his successor, a former Assistant School Director, as leader of the school. With the support of the network staff, the IMSA North leadership team demonstrated sufficient academic and operational expertise. Although roles and responsibilities were delineated on an organizational chart, the Superintendent's previous role as IMSA North Principal led to some confusion in the transition of organizational responsibilities.

In order to allow the Director to focus mostly on internal communications and operations, including supervision and evaluation of the educational programs and staff, the Superintendent managed the majority of policy oversight and external communications. Specifically, the Superintendent operated as the liaison between IMSA North and the board of directors and Board Chair, Concept Schools, the Mayor's Office (OEI), and community partners. As part of a multi-state network of charter schools, IMSA North was able to leverage its relationship with other Concept Schools across the Midwest to engage in professional development and best practice sharing. Additionally, the Superintendent worked to establish many relationships with influential community members and elected officials to drive awareness of and support for the school.

### Organizational Chart

Concept Schools utilized an extensive system of data analysis and provided IMSA North with tools and training to systematically collect and analyze student data to set goals and inform academic programming. Students who needed additional academic support received extended time in after school activities, as well as Saturday School. Additionally, the school set a school goal around student participation in extracurricular clubs, focusing on student engagement as a school priority. Both the Superintendent and Director were able to accurately speak to several types of data and reflect on the school's progress throughout the year.

Overall, the school and network leadership were consistently effective in their organizational and academic oversight and receive a [meeting standard](#) for this indicator.

3.2. Does the school satisfactorily comply with all its organizational structure and governance obligations?							
Indicator Targets	Does not meet standard		The school presents concerns in a majority of the sub-indicators with no evidence of a credible plan to address the issues.				
	Approaching standard		The school presents concerns in a minimal number of the sub-indicators and may or may not have a credible plan to address the issues.				
	Meets standard		The school complies with and presents no concerns in the sub-indicators below.				
	Exceeds standard		The school consistently and effectively complies with and presents no concerns in the sub-indicators below.

Sub-indicator Ratings	Sub-indicators						Rating
	Submission of all required compliance documentation in a timely manner as set forth by the Mayor's Office, including but not limited to: meeting minutes and schedules, board member information, compliance reports and employee documentation						DNMS
	Compliance with the terms of its charter, including amendments, school policies and regulations, and applicable federal and state laws						MS
	Proactive and productive collaboration with its board and/or management organization (if applicable) in meeting governance obligations						AS
	Active participation in scheduled meetings with OEI, including the submission of required documentation by deadlines						AS

During the 2013-2014 school year, it was unclear who was primarily responsible for submitting compliance documents to the Mayor's Office (OEI) and the Indiana Department of Education (IDOE). Reports and documents, such as employee spreadsheets, board meeting minutes, and quarterly reports, were submitted by the Superintendent, School Director, and Business Manager. While they were responsive and worked with OEI to ensure compliance obligations were met, documents were frequently submitted late.

IMSA North maintained compliance with all material sections of its charter and submitted amendments as necessary. The Superintendent, Director, and relevant network staff were consistently engaged in meetings with OEI. However, school meetings were challenging on occasion, with insufficient documentation to efficiently lead discussions. Due to the significant concerns with timely compliance reporting, IMSA North **does not meet standard** on this indicator.

3.3. Is the school's board active, knowledgeable, and does it abide by appropriate policies, systems, and processes in its oversight?							
Indicator Targets	Does not meet standard	The school presents concerns in a majority of the sub-indicators with no evidence of a credible plan to address the issues.					
	Approaching standard	The school presents concerns in a minimal number of the sub-indicators and may or may not have a credible plan to address the issues.					
	Meets standard	The school complies with and presents no concerns in the sub-indicators below.

Sub-indicator Ratings	Sub-indicators						Rating
	Timely communication of organizational, leadership, academic, fiscal, or facility deficiencies to the Mayor's Office; or when the school's management company (if applicable) fails to meet its obligations as set forth in the charter						MS
	Clear understanding of the mission and vision of the school						MS
	Adherence to board policies and procedures, including those established in the by-laws, and revision of policies and procedures, as necessary						MS
	Recruitment and selection of members that are knowledgeable, represent diverse skill sets, and act in the best interest of the school and establishment of systems for member orientation and training						AS
	Effective and transparent management of conflicts of interest						MS
	Collaboration with school leadership that is fair, timely, consistent, and transparent in handling complaints or concerns						AS
	Adherence to its charter agreement as it pertains to governance structure						MS
	Holding of all meetings in accordance with Indiana Open Door Law						AS

During the 2013-2014 school year, IMSA North's board was chaired by the founding board president and comprised of directors with expertise in business, education, community outreach, and facilities. While the board does utilize Concept School financial staff and retains a lawyer, it could benefit from continuing to diversify its roster and add additional skillsets, such as finance, law, or marketing to its oversight.

A review of meeting minutes and notes demonstrates the board’s commitment to the school’s mission of preparing student for college through a rigorous science, technology, engineering, and mathematics curriculum. The Superintendent and School Director provided an extensive report and dashboard at each meeting, which generated discussions from board directors around academic programming, finances, school events, enrollment, and staffing. In order to fully promote the mission of the school, the board approved implementation of STEM initiatives including Project Lead the Way and Vex Robotics. Additionally, the board often discussed ways to incentivize teacher retention, building in performance-based raises and bonuses.

The Superintendent primarily managed communications between the board, Concept Schools, and the Mayor’s Office. He was routinely proactive in providing up to date and transparent information regarding school progress and concerns. Concept Schools handled the majority of governance-related responsibilities, including setting meeting agendas, providing reports, and providing training and development. While this route ensured IMSA North remained in compliance with the board’s bylaws and policies, it would be beneficial for more direct oversight to come from the board itself.

# Required for Quorum

The IMSA North board holds monthly meetings.

The board delegates management of the school to Concept Schools, a Charter Management Organization that operates 30 schools across the Midwest.

Meetings were held monthly and regularly achieved quorum, but attendance varied slightly with some meetings fully attended and others missing 3-4 directors. Additionally, meeting schedules were posted on the outside of the school building; however, there a few instances when the date and/or location of the meeting changed and the change was not reflected on the posted schedule. Overall, the board provided competent oversight for IMSA North, but could continue to improve its effectiveness in a few key areas. For these reasons, IMSA North is approaching standard.

3.4. Does the school’s board work to foster a school environment that is viable and effective?							
Indicator Targets	Does not meet standard		The school presents concerns in a majority of the sub-indicators with no evidence of a credible plan to address the issues.				
	Approaching standard		The school presents concerns in a minimal number of the sub-indicators and may or may not have a credible plan to address the issues.				
	Meets standard		The school complies with and presents no concerns in the sub-indicators below.				
	Exceeds standard		The school consistently and effectively complies with and presents no concerns in the sub-indicators below.

Sub-indicator Ratings	Sub-indicators						Rating
	Regular communication with school leadership and/or its management company						MS
	Annual utilization of a performance based evaluation to assess its own performance, that of the school leader, and management organization (if applicable)						DNMS
	Collaboration with the school leader to establish clear objectives, priorities, and goals						MS
	Interaction with school leader that is conducive to the success of the school, including requesting and disseminating information in a timely manner, providing continuous and constructive feedback, and engaging the school leader in school improvement plans						MS

During the 2013-2014 school year, representatives of Concept Schools remained in consistent contact with the IMSA North board. Concept schools provided support in the areas of leadership coaching, academics, operations, and finances. Primarily through the Superintendent, Concept Schools provided up to date information at relevant times throughout the year and maintained consistent communication with both the board and the Mayor’s Office.

One of the responsibilities of Concept Schools is to provide an annual evaluation of the School Director. The Superintendent evaluated the School Director, using a national evaluation tool from Concept Schools. However, at the close of the 2013-2014 school year, the board had not yet implemented a formal method of evaluating the Superintendent’s performance or that of its own. While the board provided informal, formative feedback on school progress and guided the Superintendent to focus on specific priorities, the lack of a

formalized evaluation and benchmarking system prohibited the board from clearly identifying goals and priorities for itself and the school and from evaluating either at the close of the year.

In all observed meetings and interactions, the board, school staff, and network staff all acted in a professional and respectful manner, indicating a shared commitment to the school’s mission. However, due to the lack of formal evaluation systems, IMSA North is approaching standard for school and board environment.

3.5. Does the school comply with applicable laws, regulations, and provisions of the charter agreement relating to the safety and security of the facility?							
Indicator Targets	Does not meet standard	The school presents concerns in a majority of the sub-indicators with no evidence of a credible plan to address the issues.					
	Approaching standard	The school presents concerns in a minimal number of the sub-indicators and may or may not have a credible plan to address the issues.					
	Meets standard	The school complies with and presents no concerns in the sub-indicators below.

Sub-indicator Ratings	Sub-indicators						Rating
	Health and safety code requirements						MS
	Facility accessibility						MS
	Updated safety and emergency management plans						MS
	A facility that is well suited to meet the curricular and social needs of the students, faculty, and members of the community						MS

In 2013-14, IMSA North’s facility met all health and safety code requirements and provided a safe environment conducive to learning. The facility’s design, size, maintenance, security, equipment and furniture were all adequate to meet the school’s needs. The school was accessible to all, including people with physical disabilities. The Mayor’s Office monitoring of IMSA North’s compliance with health and safety code requirements did not reveal any significant concerns related to these obligations. As the school continues and finishes its construction to support its expansion, it will be important to continue monitoring these areas. For its current compliance, the school is meeting standard for this indicator for 2013-14.
